August 13th, 1917.

Sir Robert Falconer

Lake Vernon

Huntsville Ont.

Dear Mr President:

In reply to your letter of the 9th of August,- Walter Maxwell Smith entered the Faculty of Applied Science & Engineering in the Session 1914-1915, with Junior Matriculation standing and Honour Mathematics. He completed the First Year with the exception of Trigonometry in May 1915. In September, 1915, he passed in Trigonometry, and entered his Second Year. In the Session 1915-1916 he was granted standing in his Second Year on account of enlistment. At the office of the Secretary of the Faculty no one knew him personally, but his record shows that he was an exceptionally good student. He is twenty-one years of age, and his home is in Brantford. He enlisted in the Divisional Signal Company on May 26th, 1916.

Yours very truly,

H. Brebner

Aug. 16 1917.

Dear Miss MacKenzie,

I have just heard from Dr Clarke who agrees that we should accept Miss Cullis's offer. Will you therefore please send the cable to Professor Mackenzie which Miss Patterson left with you.

I wish to nominate Mr Rife for the vacant fellowship as I have had no new applications; but I have not got his address. Do you happen to have it?

You will see that I cannot yet compete with you in the matter of type-writing. but give me time.

With kind regards I am yours sincerely

June 24th, 1918

Dear Mrs. Mackenzie:

I am returning to you herewith Mr. Wallace's book which you kindly lent me and which I have read with much pleasure. I should have returned it long ago. He is certainly an idealist, and one would hope that out of so much idealism something could be done to make Ireland at present a happier country than it is.

With kind regards, I am,

Yours sincerely,

President.
